Summary

Passionate and solutions-driven full stack web developer with a web development certificate from Rice University. Experience in HVAC manufacturing, service, and repair utilizing a combination of strong communication, collaboration, problem-solving, and analytical skills. Strong ability to design, build, and maintain websites from conception to production. Ability to work in a fast-paced and diverse team environment developing solutions and exceeding expectations.

Technical Skills

Softwares/Platforms: Github

Software Languages: HTML, Javascript, CSS, Node.js

Projects

Marvel Lookup | <https://github.com/brenj23/Marvel-Lookup> | https://egarza0614.github.io/marvel_lookup/

- Webpage for Marvel Character lookup. Webpage will display data from Marvel API (characterbio, thumbnail image, comic books, etc) as well as a trailer of movie/tv show of the character pulled using YouTube API
- My core responsibilities in the project was to create majority of the variables in javascript as well as all the marvel API coding in javascript.
- Javascript, HTML, jQuery, CSS

Work Experience

Military Police

2016 – 2019

United States Army

As a soldier I was required to follow orders and execute those orders to my best ability. I was required to conduct law enforcement operations, security details, and field operations/training.

Technician

2019 – 2022

Aggreko

Houston, TX

As a technician I was required to troubleshoot, service, and repair electrical and mechanical systems for the companies industrial rental equipment. During my time with Aggreko I traveled the country going everywhere I was needed to get the most experience as possible.

Key Accomplishments:

- Volunteered to be part of national disaster team.
- Became a member of Major Project Travel Team

Test Stand Technician

2022 – Present

Smart Family of Coming Products

Houston, TX

As a test stand technician I am required to troubleshoot, collect data and repair electrical and mechanical systems for industrial HVACR equipment.
